

3000 Lbs Capacity Gravity Pallet Racking System Power Coated Finish 2-6 Levels

Our Product Introduction

For more products please visit us on warehouse-rackings.com

Basic Information

- Place of Origin: China
- Brand Name: Qifei
- Certification: ISO9001 CE SGS
- Model Number: Gravity Racking
- Minimum Order Quantity: 10
- Price: 50
- Packaging Details: Standard Export
- Delivery Time: 20 days after deposit
- Payment Terms: 30% deposit, 70% before delivery
- Supply Ability: 8000ton/year

2 aisle storage gravity flow pallet rack

High density storage:
Up to 20 pallet deep or more.

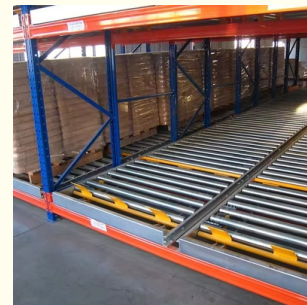

1 aisle storage

1 aisle storage

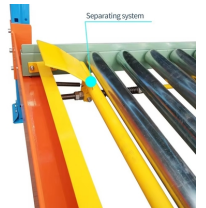

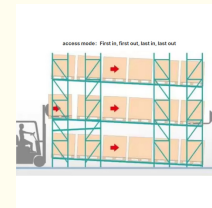

Product Specification

- Number Of Levels: 2-6 Levels
- Space Utilization: Maximizes Vertical Storage Space
- Accessibility: First-in, First-out (FIFO) System
- Scale: Heavy Duty
- Material: Steel
- Load Capacity: Up To 3,000 Lbs Per Level
- Compatibility: Compatible With Most Forklifts
- Loading Capacity: Heavy Duty
- Oem: Available
- Style: Gravity, Roller
- Surface Treatment: Powder Coating
- Application: Warehouse
- Color: Customized

Product Description

Heavy Duty Gravity Pallet Racking System 3 000 lbs Capacity Power Coated Finish FIFO Accessibility Safety

Product Description:

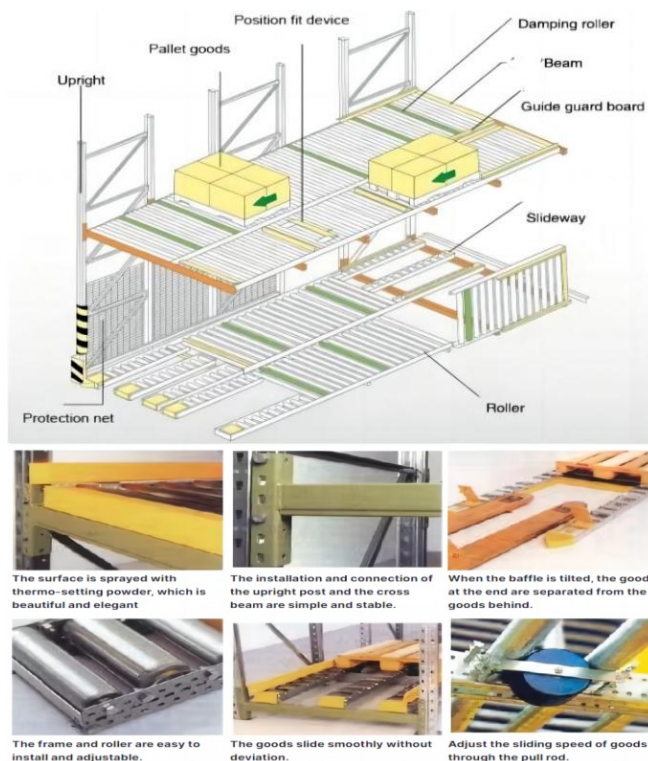

Working on a **first-in,first-out** basis, gravity racking provides extremely high levels of storage density in a given area. Pallets are loaded onto dedicated lanes of inclined gravity rollers which are set at a fixed gradient. When a load is taken from the picking face, the next pallet rolls into position, with replenishment stock loaded at the opposite (upper) end of the lane. Stock rotation is therefore automatic with the minimum of fork lift truck movements. It is used for storing large quantity of goods of the same kind. And full use of the space can be made. By using roller system or pallets with roller and under the influence of gravity, "first in and first out" for the goods is achieved.

Applications:

Features of Gravity Pallet Racking:

1. Full space utilization: Save your space 60% compared to normal rackings.
2. Efficient: Enhance the efficiency of logistics operation, save your time .
3. Economical: save your space and enhance efficiency.
4. Convenient: Easy to operate ,no necessary need for regular maintenance ,durable and reliable.
5. Safe: Absolute safe, protect goods from destructed . Most suited for vulnerable goods.
6. Widely used in Food Industry, Medical Industry, Drink Industry, Chemical Industry and so on.

Customization:

Support and Services:

Our Gravity Pallet Racking product comes with comprehensive technical support and services to ensure that your racking system operates efficiently and effectively. Our experienced team is available to provide you with assistance and guidance in the following areas:

- Installation and assembly
- Maintenance and repair
- Product training and education
- System configuration and design

We are committed to providing our customers with the best possible service and support, so please do not hesitate to reach out to us if you have any questions or concerns regarding your Gravity Pallet Racking system.

Packing and Shipping:

Product Packaging:

All components will be securely packaged to prevent any damage during transportation.

The packaging will be made of high-quality materials to ensure maximum protection.

The components will be clearly labeled for easy identification.

An instruction manual will be included in the package for easy assembly.

Shipping:

The customer will be provided with a tracking number to track their order during transit.

EXPRESS

Express door to door is the most convenient one. 5-7days will arrive
